Frequently Asked Questions (FAQs) for eTube

What is eTube?
eTube is a video-sharing and streaming platform designed for creators and viewers alike. It offers cutting-edge tools for creators to share their stories, monetize their content, and connect with audiences, while viewers enjoy personalized recommendations, live streaming, and an ad-free experience if they choose.

How is eTube different from other video platforms?
eTube prioritizes privacy, offers advanced AI-driven content discovery, and provides creators with flexible monetization options. Unlike many platforms, eTube is built with transparency and user-first innovation, making it a place where creativity thrives without compromise.

Is eTube free to use?
Yes, eTube is free to use for both creators and viewers. Optional premium subscriptions unlock additional features like ad-free viewing, exclusive content, and enhanced tools for creators.

How do I create an eTube account?

Visit www.eTube.com and click on the "Sign Up" button. You can sign up using your email address or connect via supported social media accounts.

How does eTube recommend content?
eTube uses advanced AI to analyze your viewing preferences and suggest videos tailored to your interests. Unlike other platforms, eTube’s recommendations prioritize relevance while respecting your privacy.

Can I watch videos offline?
Yes! eTube’s Premium membership allows you to download videos to watch offline anytime, anywhere.

How do I report inappropriate content?
If you come across content that violates our community guidelines, click the “Report” button below the video. Our moderation team reviews reports promptly to maintain a safe environment for everyone.

Does eTube have parental controls?
Yes. eTube offers robust parental controls that allow you to restrict access to certain content based on age or category. These settings can be customized in your account preferences.

How do I start uploading videos to eTube?
Once you've created an account, click the "Upload" button on the homepage. Follow the instructions to upload your video, add a title, description, and tags, and customize your privacy settings.

What monetization options does eTube offer?
eTube provides multiple ways to earn, including ad revenue sharing, fan subscriptions, sponsorships, and the ability to sell exclusive content directly to your audience.

Does eTube take a percentage of my earnings?
eTube offers competitive revenue-sharing rates to maximize your earnings. Details on exact percentages can be found in our Creator Monetization Policy.

How can I track the performance of my videos?
eTube offers an advanced analytics dashboard that provides insights into your views, audience demographics, engagement, and earnings. This data helps you refine your strategy and grow your audience.

Can I live stream on eTube?
Absolutely! eTube's live streaming tools include real-time chat, interactive polls, and low-latency streaming to help you connect with your audience instantly.

How do I reset my password?
If you've forgotten your password, click on "Forgot Password" on the login page. Follow the instructions sent to your email to reset your password.

Can I delete my eTube account?
Yes, you can delete your account at any time through the account settings page. Note that deleting your account is permanent, and all your data will be removed from our platform.

How do I change my account type from Viewer to Creator?
Go to your account settings and select "Upgrade to Creator Account." You'll gain access to tools and features designed for creators, including video uploads and monetization options.

How does eTube protect my privacy?
eTube is committed to a privacy-first experience. We do not track your activity for advertising purposes and give you full control over your data. For more details, read our Privacy Policy.

Can I control who sees my videos?
Yes, you can set your videos to public, unlisted, or private when uploading. You can also create exclusive content for specific audiences through fan subscriptions.

What internet speed do I need to stream videos on eTube?
For standard streaming, a minimum speed of 5 Mbps is recommended. For HD or 4K streaming, 10-25 Mbps is ideal.

Does eTube support 4K and 360° videos?
Yes, eTube supports 4K resolution and immersive 360° video formats, providing creators with diverse options for sharing high-

quality content.

How do I fix buffering issues while watching videos?
Ensure your internet connection is stable and try reducing the video quality in the player settings. If issues persist, clear your browser cache or restart your device.

How can I connect with other creators on eTube?
eTube offers community features like forums, group chats, and collaboration tools to help you connect with fellow creators and build your network.

Where can I get support if I encounter issues?

Our dedicated support team is available 24/7. Visit our Help Center or contact us directly at support@etube.com for assistance.
